

Free Water

You have to pay for your house Electricity
And the cooking gas , it was never free.
But now a new truth you're about to see,
Free water will soon be FF history.

As I write the Meters are being laid,
What happens if you have not paid,
The news is bad , as I here displayed
They will stop your cock , I am afraid!

Cut you off, no cup of wet tea,
You don't believe, well ask Bertie,
No way to wash , or wet granny,
Now is this fair, Do you agree ?

Mr Patton told Bertie's private greeter
Well I have to install your meter,
This news as it slowly hit her,
Caused a reply that was kind of bitter.

That rule does not apply in this here gaff,
This reply made Mr. Patton laugh,
The Media will think that rather naff !
Who made the rule ... Well Bertie's Staff !

So ends the story of Irish H2O,
I have told the bit I know,
So from here where do we go ?
My advice..... Just Vote No

***** P.S.

In Galway a different story !
For them no water worry,
Fortified by local slurry,
The meters sent back in a lorry.
