

Norton 360

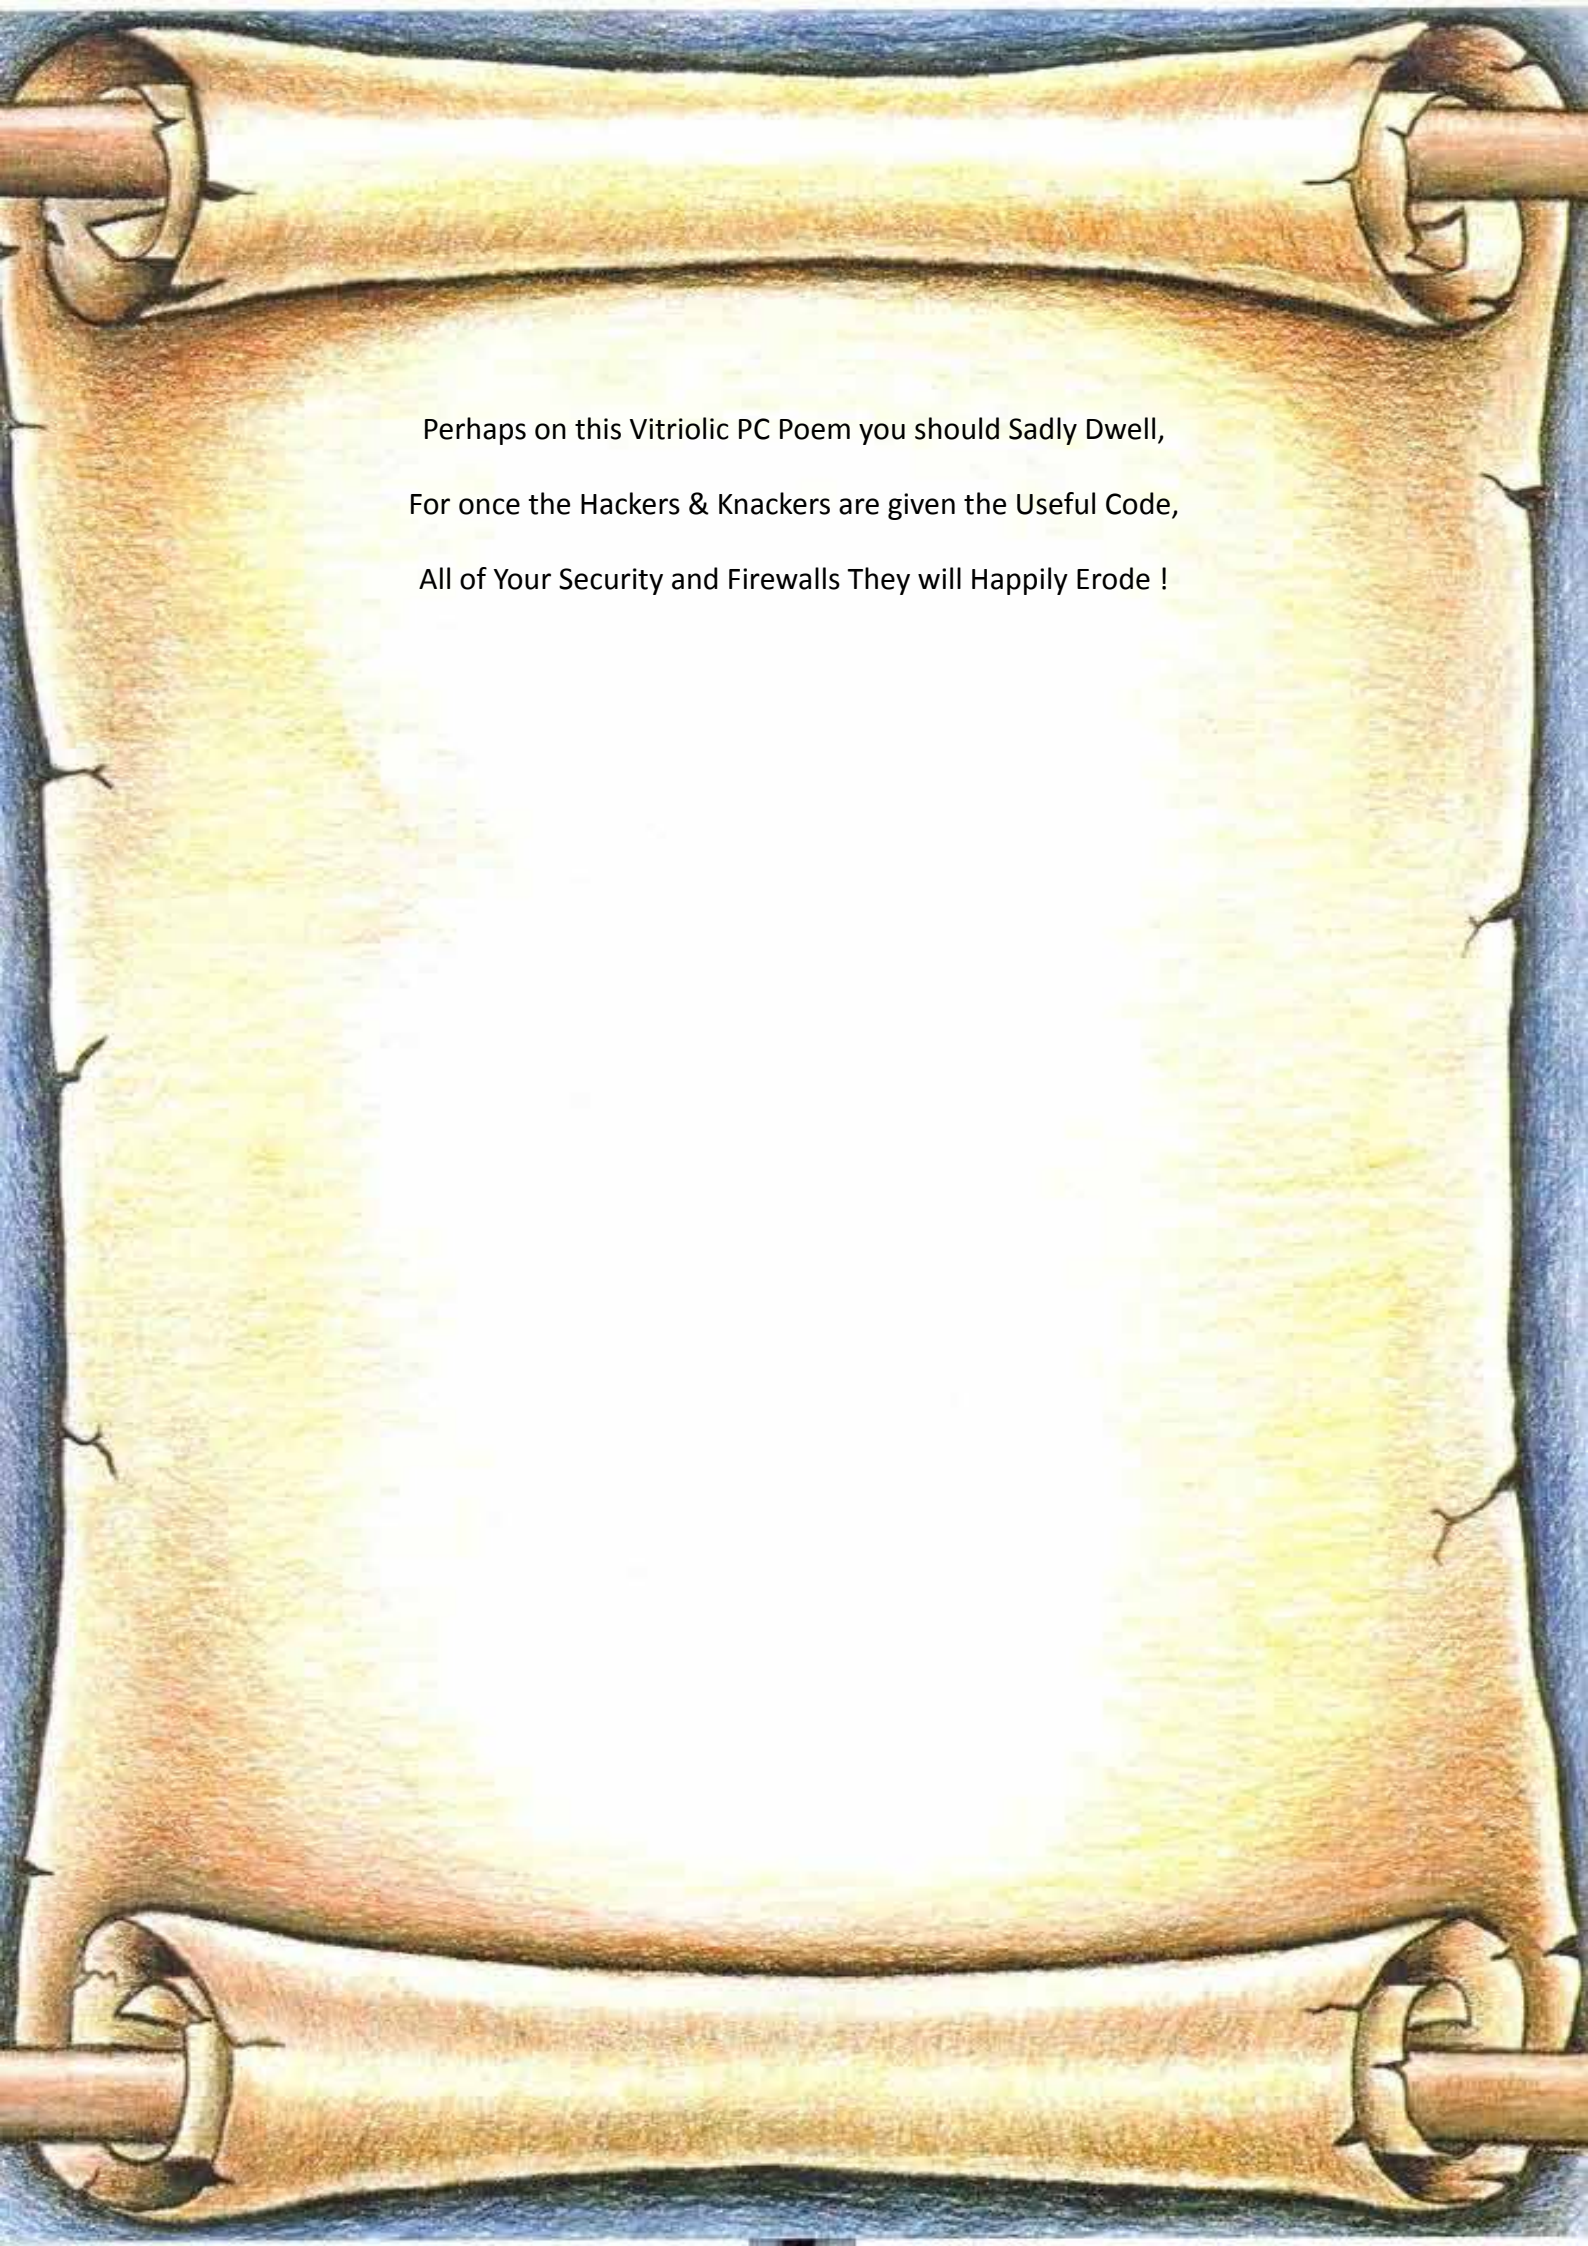

I had Norton 360 Full Protection installed on my Personal PC,
It was supposed to protect from Hackers and Crackers you See,
But My sign on was Obliterated the Knackers had their way,
And Poor Old Norton 360 well, what can I bloody say ?

So now no Home computer , just a useless IT So BEAU Locks
Because I cannot use it it no longer Plays or Rocks,
No I tunes or Media No Whitney Houston Tunes,
NO it just sits and Stares at Me Worth less than old Balloons,

Surely A Norton Expert, could stop a remote attack,
As the Knackers Start their Happy Crappy Gay attack !
Surely it is Simple to protect The SAM You see,
From Rewrite without Administrator Authority !

But what would I know I am just an OLD COBOL & RPG11
Who used to Know what Clever Programmers could Do,
Bytes and Bits well Switch them on, now nothing you can do!
Dos 3.1 Can Prevent the clever If You have the Secret too .

So the Gates of Microsoft and Poor old Norton 360 as well,

A scroll of parchment with a poem about hackers and security. The scroll is unrolled, showing the text in the center. The parchment is yellowed and has some cracks. The scroll is held by four wooden rollers, two at the top and two at the bottom. The background is a dark blue-grey color.

Perhaps on this Vitriolic PC Poem you should Sadly Dwell,
For once the Hackers & Knackers are given the Useful Code,
All of Your Security and Firewalls They will Happily Erode !
