

Smoking

Can smoking be good for you ?..... When it kills your closest friends.

And when you lose a daughter, you can never make amends.

If it is your only son , Well the battle you have won .

Son I needed a fag today , sure I'm only having one.

* * * * *

Which one was the one that killed? .. I'll answer if you stay,

The cigarette that killed was the one I had today ,

And the one I had yesterday , and the day before ,

But when you're killing people you never keep the score .

* * * * *

Your excuse is you're addicted , that's always your sad tale,

If you don't have a fag right now , you know that you will fail,

Fail to keep your Reason , nearly lose your precious mind,

But if you examine closer , A new story you will find .

* * * * *

Death and Destruction , that's what you're staying near ,

Emphysema / Blue Bloating will soon be your only fear .

And if you want the very best reason , to have another fag,

It stops you now from thinking , about your Body Bag .

* * * * *

But what of Government Taxation , surely that's a matter sore !
As she continues to fill her coffers, like a greedy seedy whore.
And Health Bills are rising daily , as patients scream and roar,
Kill that dammed old weed instead , so we can breathe once more !

* * * * *

So if your local Publican , or Politician brave upon the day ,
Tells you now that Smoking , has really got to stay,
If he's telling you the truth ,,,,, Well you will die for him .
And when he attends your funeral , your stool will be left to Jim .

* * * * *

So here ends another insight , I hope I tell it right,
And healthy smoke free people , they also have to fight,
For a simple God given freedom , It's just called Sweet Fresh Air.
So leave some for your friends today , IF YOU REALLY CARE .
