

The Burning Bush

Moses said Jehovah asked me to show you the way,
On my journey Palestine was my Israel stay.
Moses saved his people , but what has he got !
His Jewish people Killing Jacob and Lott.

But now in two thousand and two,
The Americans all want to save you.
But how can we be saved from the grave,
By a man who would still enslave.

B2 bombers can drop a full load,
But what really happens when they explode.
Do rebels die or just real people,
Perhaps we should build another church steeple.

Cambodia was destroyed but who has won ?
American bombs dropped nine million ton.
But where's that mothers favourite son?
In truth he's dead he cannot run..

So is this what we mean by freedom?

One man's creed not agreed on.

He can order more Americans to kill,

But is it really the people's will ?

I believe as just a natural human being,

When you talk of people freeing !

Surely free lives should live long.... long past

A single American nuclear bomb blast.
